SUMMARY

Versatile Frontend Developer with 3+ years of experience developing scalable web and mobile applications using React, Ionic, and TypeScript. Skilled in modern UI frameworks, state management, and Salesforce LWC with Apex integration. Focused on building reusable components and delivering seamless user experiences.

EDUCATION

Sri Ramakrishna College of Arts and Science **2019 - 2022**
Bachelor of Science in Information Technology
GPA: 8.5/10

PROFESSIONAL EXPERIENCE

T2C (TSquaredC) | Product Engineer **Apr 2023 – Present**

Frontend Development (React / TypeScript)

- Developed dynamic and responsive web applications using React, TypeScript, and modern frontend architecture.
- Designed and implemented reusable component libraries, reducing code duplication and accelerating feature development.
- Managed complex application state using Zustand and Redux, ensuring predictable data flow across large-scale applications.

Mobile Application Development (Ionic)

- Built and deployed cross-platform mobile applications using Ionic and TypeScript for Android and iOS.
- Optimized mobile UI performance and responsiveness to ensure a seamless user experience across devices.

CRM Development (Salesforce)

- Developed custom Salesforce Lightning Web Components (LWC) for CRM functionality and user workflows.
- Configured Salesforce environments including Org setup, Sandbox configuration, and Apex class integrations.
- Enabled seamless frontend–backend communication using Apex and Salesforce APIs.

Product & Solution Development

- Led the development of four full-scale products from inception to deployment, including admin dashboards and mobile applications and delivered end-to-end solutions, covering architecture design, frontend implementation, and production deployment.

Cornerstone Solutions | Frontend Developer Intern **Sep 2022 – Mar 2023**

- Acquired foundational skills in HTML, CSS, and JavaScript through active participation in project contributions. Independently built and deployed mini-projects, reinforcing core frontend development abilities.
- Collaborated with the senior engineering team, contributing to sprint tasks and participating in code reviews.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+) | TypeScript
- **Frontend Frameworks:** React.js | Ionic | React Native
- **Styling & UI:** HTML5 | CSS3 | Tailwind CSS | Material-UI | Bootstrap
- **State Management:** Zustand | Redux | Ionic Storage
- **CRM & Enterprise:** Salesforce LWC | Apex Integration | Org & Layout Configuration
- **Dev Practices:** RESTful API Integration | Reusable Component Architecture | Debugging & Optimization
- **Tools & Platforms:** Git | Visual Studio Code | Appflow | Firebase

PROJECTS

Realm (Real Estate Portfolio App)

- *Description*: A cross-platform application for real estate professionals to list and manage properties available for rent, sale, or purchase.
- *Responsibilities*: Developed mobile and web applications, along with an admin panel for efficient property management, launched on Android and iOS.
- **Techstack:** Ionic | TypeScript | Zustand | Appflow | Ionic Storage

MAHE (Manipal Academy of Higher Education – Application Portal)

- *Description*: An application portal for students applying for courses at MAHE.
- *Responsibilities*: Designed and implemented the user interface, functionality, and Apex class integration.
- *Experience Gained:* Acquired practical experience with Salesforce LWC and sandbox configuration.
- **Techstack:** HTML | CSS | JavaScript | Salesforce LWC | Apex integration

Flame University (Student Portal)

- *Description*: A platform for students to view account details, submit tickets, access events, calendars, and feeds, while integrating support and service features.
- *Responsibilities*: Developed the Flame Student Portal from scratch using Salesforce LWC, involving custom components, builder layout setup, organisation configuration, and Apex integration for frontend-backend communication.
- **Techstack:** Salesforce LWC | Builder Layout | Apex Integration.

Lisa Saree Shaper (E - Commerce Application) - Freelaunce

- Developed an e-commerce web application for a boutique to showcase and sell saree shapewear products.
- Integrated existing Firebase APIs for product management and shopping functionality.
- Built a responsive and mobile-friendly UI using React.js, Material-UI, and Bootstrap for seamless user experience across devices.
- **Techstack:** React.js | Material-UI | Bootstrap | REST API Integration

HIGHLIGHTS

- Developed a standalone lead form for the Manipal campus. The form dynamically rendered programs based on the URL and could be injected into multiple campus websites, helping thousands of leads get submitted efficiently.
- Built two complete projects from scratch, delivering end-to-end solutions with fully mobile-friendly and responsive UIs, Designed and implemented dynamic and reusable React components.
